CLASS EDITOR: Mrs. James D. Hunt '56

On the Cover:

Kenneth G. Wenger '50 (center), director of admissions, is one of the many harried college officials ready to give up in despair over the two sets of identical twins in the newly arrived class of '62. Now that name tags are discarded, double trouble has really arrived over: David and William Samuel, Johnstown; and Susan and Faith Eshbach, Margate City, N. J.

ALUMNI ASSOCIATION

OFFICERS FOR 1958-59

President Dr. John N. Stauffer '36, 130 W. Ward St., Springfield, Ohio
First Vice-President Cyrus O. Caulton '29, 543 New Gulph Road, Bryn Mawr, Pa.
Second Vice-President .. Betty Kiracofe Weicht '48, R. D. 1, Box 319, Hollidaysburg, Pa.
Alumni Secretary Harold B. Brumbaugh '33, Juniata College, Huntingdon, Pa.

ALUMNI REPRESENTATIVES ON JUNIATA BOARD OF TRUSTEES

Dr. M. Allen Brumbaugh '18 (1959) Buckley Road, N. Syracuse 12, N. Y.
Edith Hartman Cutrell '27 (1960) 20 Glenwood Lane, Roslyn Heights, N. Y.
Will Judy '11 (1961) 3323 Michigan Blvd., Chicago 16, Ill.

EXECUTIVE COMMITTEE

Dr. Calvert N. Ellis '23, President of the College, Taylor Highlands, Huntingdon, Pa.
C. Jewett Henry '29, Stone Creek Road, Huntingdon, Pa.
Dr. W. Newton Long '40 (1959) 5801 Kipling Court, Baltimore 12, Md.
Dr. John E. O'Donnell '43 (1960) 863 Market St., Lemoyne, Pa.
James E. Utts '49, (1961) 314 S. 22nd St., Altoona, Pa.

GOINGS ON

Current and what's ahead on the Juniata campus:

DECEMBER

- 1 Dr. Ralph E. Lapp, director of Nuclear Service, 10 a. m., Oller Hall
- Basketball: Bridgewater, home
- 4 Wrestling: Lebanon Valley, home
- 5 College-Community Orchestra Concert, 8:15 p. m., Oller Hall
- 7 Christmas Chorus, 8 p. m., Oller Hall
- 12 Basketball: Ursinus, home
- 13 JCA Christmas Party
- 14 Christmas Pageant, 3:30 p. m., Oller Hall
- 17 Christmas Dinner and Dance
- 19 All-College Worship Service, 11 p. m., Oller Hall
- 20 Recess for Christmas

JANUARY

- 7 Basketball: Shippensburg, home
- 9 Basketball: Westminster, home
- 11 All-College Chapel Service, 10:30 a. m., Oller Hall
- 12 Basketball: Elizabethtown, home
- 14 Curtis String Quartet, 10 a. m., Oller Hall
- 19 Final Exams begin
- 29 Choir Tour (Jan. 29-Feb. 8)

FEBRUARY

- 2 Spring Term opens; Convocation 10 a. m., Oller Hall
- 4 Basketball: Lock Haven, home
- Civic Concert, Sydney Foster, pianist, 8:30 p. m., Oller Hall
- 5 All-College Chapel Service, 10:30 a. m., Oller Hall
- 7 Wrestling: Lycoming, home
- 9 James T. Farrell, author, 10 a. m., Oller Hall
- Basketball: Dickinson, home
- 10 Concordia College Choir, 8:15 p. m., Oller Hall
- 11 Basketball: Lycoming, home
- 16 Basketball: Wilkes, home
- 21 All-Class Night, 8:15 p. m., Oller Hall
- 23 Basketball: Albright, home

The Juniata College Bulletin is published quarterly by Juniata College at Huntingdon, Pennsylvania: Winter, Spring, Summer and Fall. Entered February 6, 1904, at Huntingdon, Pa., as second-class matter under Act of Congress of July 16, 1894.

The Talk of The Campus

From This Angle

JUNIATA'S NEWEST freshman class, numbering 228, was welcomed to the campus this fall as "privileged individuals" who were selected from 711 applicants among 4,000 who inquired about admission.

Both President Ellis, in his welcome to newcomers, and Kenneth G. Wenger '50, director of admissions, emphasized that the incoming freshmen were "carefully selected" young men and women — 80 percent of whom had taken the college entrance board examinations.

The admissions office reported that actually 4,006 had made inquiry about admission to the College through August 30. Of this total, 711 applied for admission.

In order to obtain this freshman class of "about 230," the admissions office accepted "two to secure one." Nearly 200 other students were rejected, Mr. Wenger reported.

THE SMALL COLLEGE atmosphere which characterizes Juniata again rated number one with freshman students when they were asked to check why they chose "JC" as their college.

Ranking a close second was the "scholastic reputation" of the college and close behind in third were "the college ideals." Students placed as their fourth reason that Juniata was "superior in their chosen fields" of chemistry, home economics, pre-med, science, education, music, pre-law, mathematics and Spanish.

Although many students are receiving scholarships, student aid was listed in fifth place. Proximity,

church college atmosphere and low cost, ranked next in that order.

In spite of Juniata's fantastic winning record in football during the past six years, the athletic program was not considered important by the freshmen.

TOTAL ENROLLMENT for the Fall term has hit a new record high of 774, the registrar's office figures revealed. The previous high of 756 was established last year. New records also were set in the number of resident students and in number of women enrolled.

This year's total includes 650 resident students — 15 more than last year. Of this total, 291 are resident women. There was a slight drop in the number of resident men . . . 359 this year compared to 370.

The overall total includes six special students who are taking a full-time program but are not candidates for degree and 29 unclassified students in music and non-music courses.

The current total of 335 women tops the 1956 high of 309. There are 439 men enrolled in all categories. A breakdown by class shows 138 seniors, 167 juniors, 191 sophomores and 243 freshmen (228 entered in September).

THE FACULTY considered three major areas in relation to an overall study of the college's curriculum at a pre-opening conference in September. Workshops were held under the direction of two academic deans and a test analysis director from the College Entrance Examination Board.

Dean Karl D. Hartzell, Bucknell University, directed the discussion of "Balance Between General and Specialized Education;" Dean Lucile Allen, Chatham College, was consultant for "Programs of Independent Study!" and John M. Duggan, director of test analysis for CEEB, led the conference session on "Advanced Placement and Competence."

Further study on Juniata's curriculum will continue throughout this year.

PRIOR TO FRESHMAN DAYS, the upperclassmen also aired their problems and projects in the annual conference at Camp Kanesatake near Spruce Creek, Pa. Student Senate invited 60 campus leaders, both men and women, to participate in the two-day discussions. (See Campus Viewpoint).

Members of the faculty joined with the student leaders for dinner at the camp Saturday night when the resolutions of the conference were reported.

SOPHOCLES' "Oedipus Rex" ushered in the fall theatrical entertainment at the College on November 5 when Players, Inc., presented this outstanding production in Oller Hall. The story of Oedipus, the fulfillment of a prophecy, was acted by members of the touring company—all of whom are graduates of the widely known speech and drama department of Catholic University, Washington, D. C.

Juniata students at this writing were preparing to present their production of the Broadway hit, "The Boyfriend," as the highlight of Parents Weekend, November 14-15.

Accuracy

By DR. FRANK W. REINHART '30

DR. REINHART '30

Articles of academic interest are becoming more popular in Alumni magazines. The following was presented as an address by Dr. Reinhart on the occasion of the establishment of the Jacob H. and Rachael Brumbaugh professorship in chemistry, April 17, 1958 (Founders Day). He selected this topic as one that is exemplified by the work and life of a man who, for many years, worked diligently to educate men and women—Dr. N. J. Brumbaugh.

ACCURACY TO THE SCIENTIST is the degree of nearness of a measurement to the true value. Since the true value is seldom known, accuracy is usually an estimate based on an evaluation of the magnitude of the errors likely to occur in each step of the measuring process. The accuracy of a result is usually expressed as a \pm figure after the measurement; for example, the tensile strength of a glass fiber reinforced plastic is $40,000 \pm 4,000$ pounds/inch², which indicates that the true tensile strength is somewhere between 36,000 and 44,000 pounds/inch². Estimates of accuracy are made in this manner because it is not always possible to decide whether the error will increase or decrease the value. Estimates are usually made by assuming that all the errors will be additive regardless of sign. In cases where it is known that an error is operative in only one direction, this is considered in making the estimate. When no figures are given on accuracy, it is assumed that the last figure in the reported value is doubtful.

The estimation of errors is a long and difficult task that can be made adequately only by highly skilled experienced scientists from a detailed study of each step in the measure-

ment process. It is costly in time and money. Consequently, estimates of accuracy are often not made. Instead, scientists, aided and abetted by statisticians, use values that represent an expression of precision of the average measured value.

Precision is the reproducibility of a series of similar measurements. A set of measurements can have excellent reproducibility or precision and still be markedly poor in accuracy. For instance, in some work recently in which eight laboratories made a series of tests on vinyl chloride plastics films, one particular laboratory reported tensile and tear strength values with a spread of ± 10 percent, about the same as that reported by the other seven laboratories. However, the strength values were consistently about 35 percent lower than those reported by the others. After considerable work, these low values were traced to a defective testing machine which was clearly shown to give low results.

Concept Expanded

Poor precision indicates that defective or poor materials are being tested, or that the test procedure is poorly designed, or that the testing equipment is defective, or that the operator is careless. These concepts have been elucidated in various treatises by scientists, engineers, and statisticians. I shall attempt to show how the concept of accuracy can be expanded into a more general educational objective.

This is essentially the thought that education will develop in the individual the ability to solve problems and analyze situations more accurately. Use of this ability will im-

prove the quality, quantity, and effectiveness of the work done. Accuracy in evaluation processes results in objectivity and is more likely to reveal the truth. How can accuracy of this type be developed and how does education assist in its development?

Two tools are necessary: facts and the ability to think. The pertinent facts in any situation are the foundation stones that are used in the thinking process to arrive at an evaluation or solution. A vast store of facts is accumulated in the educational process and, in addition, sources and means of obtaining a much greater number of facts on particular subjects are learned. After all the available facts that may be concerned in a situation are brought together, each one is examined carefully.

Fact or Fancy

First, is it really fact or is it fancy? For instance, the statement is often made on cloudy rainy days that the air is heavy because smoke is not rising but stays close to the ground. We learn in elementary physics that the lighter material will rise; this indicates that the air is lighter than the smoke. Measurements show that wet air is lighter than dry air. Thus the application of a simple well known law of nature shows that this common belief is not true. Each fact is examined and studied to determine whether or not it is a fact.

Second, the facts are further examined to determine whether or not they are germane to the subject under consideration. Artifacts are often very confusing and can be misleading. The detection of artifacts may be difficult because of close relation to the subject matter. For instance, confusion was recently encountered in a study of the heat sealability of plastics films when actual facts were considered in a manner that placed them in the category of artifacts. Pieces of film were heat sealed to one another and tests made to determine tensile strength of these seals. The strength of the heat seals of two particular materials was the same, about 1200 lb/in², but one failed consistently in the seal, where-

as the other failed in the film. The confusion regarding sealability lifted when it was pointed out that the tensile strength of one film was about 1800 lb/in² while that of the other was 1200 lb/in². Good seals have strengths nearly equal to that of the film itself. Sealability coefficients were calculated by dividing the seal strength by the film strength which gave values of 0.67 and 1.00, respectively.

Third, the facts are evaluated to determine their importance and how much weight should be attached to each. An example from my field of work may help clarify this point. A common requirement in many plastics standards is one for water absorption. There is a strong tendency to eliminate this requirement when the molded product will not come into contact with water in use. However, for certain types of plastics, the amount of water absorbed can often be used to judge the quality of the molding operation and the test is inexpensive and easily made. When these types of plastics are improperly molded, the water absorption is higher and the physical properties poorer than when they are molded properly. Thus, parts molded of certain phenolic plastics that have a water absorption less than 2.0 percent in the standard test will be better quality while those with a water absorption greater than 2.0 percent will be poorer quality.

Is It a Brown Cow?

This apparently critical attitude toward facts is exemplified by a story often told about a scientist at the National Bureau of Standards. This member of the Bureau staff and a friend, not at NBS, went for a ride in the country one Sunday afternoon. The friend remarked, "Isn't that a nice herd of brown cows on the side of that hill on the left?" The NBS man looked at the herd for several seconds and then replied, "Well, they're brown on this side."

The next step is a study of the relations of the facts to one another and the development of hypotheses to find one that fits the facts and their relative importance. One specific ability that education can de-

velop and rarely does, often because of the attitude of the student, is the ability to list all possible hypotheses. We are too prone to stop examining all possible answers when we find one that appears to be good.

Some time ago I was called upon to assist a technical committee on the preparation of an industry standard. This group had worked for four years and had prepared a rough draft of the standard before I entered the picture. Although most of the document was good, one particular major point was scientifically wrong and another was missing. So the group started to work again to develop an acceptable document. During the next two years one member kept reminding me that the first draft could not be as bad as I said it was because the committee had worked for four years to prepare it. One day near the close of an all day meeting, after I had developed a headache from a combination of the tobacco smoke in the room and tiredness because of strenuous arguing all day, this member made some remarks along his usual line. I forgot my politeness and reminded him that at least one other conclusion could be made. He asked, "What's that?" The answer was, "The group could be incompetent." I was not reminded of the previous four years of work after that. However, if this member had developed the ability to think of all possible conclusions, he could have said there is still another possible conclusion. I would have been very quiet because I knew another answer; namely, "Frank, maybe you are incompetent or just plain bullheaded."

Accuracy in Communication

Conclusions reached by the process just described are not always the end. In many cases the results must be communicated to others to be of value to mankind and of maximum value to the thinker. This requires accuracy in writing and speaking. The lack of accuracy in communications in every field of knowledge and all walks of life is appalling. Incorrect use of words, confusing sentence structures, incomplete statements and thoughts, presence of subjective and extraneous matter, and lack of

orderly presentation of facts, arguments, and conclusions in publications and talks are all too common. Education can certainly be a strong factor in improving communications.

A college education can and should develop your ability to evaluate problems and situations more accurately. The attitude of the student toward his studies is one of the major controlling factors. This ability can be developed in courses in all fields of knowledge. Individuals who have this skill in one or several fields usually find that it can be used effectively in any field of knowledge or activity. All the courses you take and the studying and reading you do, when you do them with the proper attitude, will help to develop accuracy in evaluation and communication processes.

Accuracy in mental skills is not only important for the advancement and well being of individuals but also for the nation and the world of man. I believe that if 10 percent of the population in this country were accurate in evaluation, thinking, and communication processes, we would be so far ahead of those who would do us harm that they could do us no harm. If 10 percent of the world's population were in this category, there would be no international crises and no international rivalry except of the friendly competitive type. Any hope of achieving such a goal rests with the students of today and tomorrow, and largely with those in college.

On this occasion it is fitting and proper to point out that Dr. Norman Jodon Brumbaugh, who made possible the establishment of the Jacob H. and Rachael Brumbaugh Professorship in Chemistry in honor of his father and mother, played a potent role in developing accuracy in mental processes in his students. He stressed constantly that the student should and must accumulate knowledge in many fields, evaluate facts, think clearly, consider every possible hypothesis, and write and speak well. Many students of Juniata benefited from his teaching and the example he set in his attitude toward, skill in, and practice of the points I have discussed.

Around The Campus

CONSULTANTS FOR FACULTY CONFERENCE on curriculum are shown in the College Library reviewing results of three workshops conducted prior to the opening. Left to right: John M. Duggan, director of test analysis, College Entrance Examination Board; Dean Karl D. Hartzell, Bucknell University; Dean Lucile Allen, Chatham College; and Dr. Morley Mays '32, dean of the college, who served as chairman of the discussion. These three leaders in education aided the members of the faculty in consideration of three major problems in education.

laude, Dr. Bromer obtained a master of arts degree in sociology from the University of Virginia in 1943. He was elected to Phi Beta Kappa and Blue Key at F & M.

In 1948, Mr. Bromer received his Ph.D. degree in psychology at Purdue University. He taught one year at the Kokomo Extension, University of Indiana, in psychology.

Six other newcomers to the faculty were announced in the Summer issue of *The Alumni Bulletin*. They are:

Ronald L. Cherry '53, instructor in economics; Donald F. Durnbaugh, instructor in history; Wilfred G. Norris '54, instructor in physics; Earl C. Kaylor, Jr. '46, instructor in Biblical studies; Miss Sara Ellen Prociuous, instructor in modern languages; Hans-Otto Zbinden, instructor in German.

Nine Are New

THE APPOINTMENT of an associate professor of mathematics and an instructor in English completed the faculty at the College for the Fall term with nine new members.

President Ellis announced the appointment of Miss Ellie Mae Sowder, Chattanooga, Tenn., as associate professor of mathematics and David H. Weston, Jr., Staunton, Va., as instructor in English.

Miss Sowder, a graduate of University of Chattanooga (1940), was head of the department of mathematics at Flora Macdonald College, Red Springs, N. C., for five years. During the past year she was a visiting professor in sociology at St. Frances Xavier University, Nova Scotia.

Miss Sowder is a candidate for a Ph.D. degree at the George Peabody College for Teachers, Nashville, Tenn. She holds a master of arts degree from Duke University where she was an instructor in mathematics. In addition, Miss Sowder taught at the University of Tennessee for four years; University of the South, Sewanee, Tenn.; Tyner, Tenn., high

school; and was a mathematician for the TVA.

Mr. Weston, who received a B.A. degree in fine arts from the College of William and Mary in June (1958), played the lead role of Thomas Jefferson in *The Common Glory* at Williamsburg, Va. He has held roles in two productions of the Jamestown Corporation for six years.

Mr. Weston is director of dramatics replacing James L. Bray, former registrar and also a prominent actor with the Jamestown Corporation in Williamsburg.

The appointment of Dr. Richard F. Bromer, New York, N. Y., as assistant professor of psychology was announced earlier.

For the past 10 years, Dr. Bromer has been staff psychologist and assistant to the director of marketing and social research for the Psychological Corporation, New York City. He has designed studies of consumer behavior and motivation and developed new techniques in market research.

A graduate of Franklin and Marshall College, Lancaster, in 1942 with an A.B. degree conferred cum

Judy Lectureship

A CONTRIBUTION of \$20,000 for the establishment of a lecture series at the College has been made by Capt. Will Judy, Chicago publisher and former president of the alumni association.

The "Will Judy Lectureship" will make possible each year a series of lectures "intended to supplement and enrich the academic program of the college," according to President Ellis.

The college, beginning this year, will be able to bring to the campus speakers of note who are leaders in government, education, the arts, natural science, business and other areas of interest.

In making his gift, Capt. Judy stated that "each year there must be at least one lecture on fallacies, syllogisms, logic and errors of the human mind . . . in other words, the detection of fallacies in reasoning."

This, Capt. Judy pointed out, is in accord "with my almost fanatical espousal of the cause of truth and the great desirability of unearthing half truths, sophistries and so forth."

In any year the lectures may be presented by a single lecturer or a series of lecturers. In either case the college plans to invite the lecturer to remain long enough to enter in the conversation "generated by his formal remarks."

Host to Tourists

JUNIATA COLLEGE was host to a group of 240 touring home economists from European countries Friday, July 25.

The group was welcomed to Juniata—which has been selected as a "representative small, liberal arts college"—by President Calvert N. Ellis. Tours of the campus were conducted by faculty and staff and luncheon was served to all guests in Oneida Hall.

87 at Summer Term

Eighty-seven students attended the first five-week period of the College's Summer term.

DELEGATES FROM MANY COUNTRIES visited College Hill in July en route to the International Congress on Home Economics at the University of Maryland. Confering with President Ellis (right) are three leaders of the 240 who "thoroughly enjoyed" their brief tour of this small college. Left to right: Archibald Davidson, Scottish Department of Education, Edinburgh, Scotland; Miss Isabel Gibson, president of the federation and principal, Glasgow and West of Scotland College of Domestic Science; and Mme. Sylvie Fritsch, secretary general of the federation and supervisor of education, Sevres, France.

JUNIATA'S HOMECOMING Queen, Bonnie Meadows, is wearing the newly presented crown, donated by Mr. and Mrs. Ronald Rowland '34. The crown was given in honor of Mrs. Jacque Rowland Walters '58, who was last year's Miss Homecoming.

Miss Mathias on Leave

A ONE-YEAR LEAVE of absence has been granted to Miss Frances J. Mathias, institutional manager and assistant professor of home economics at Juniata College. It was effective Sept. 1.

The leave, requested by Miss Mathias, was approved by the board of trustees "in recognition of her 23 years of top quality service as administrator, manager, teacher and dietitian," according to President Ellis.

Miss Mathias

Miss Mathias, a graduate of Ohio State University, joined the staff at Juniata in 1935 and has served continuously in her present position. She will spend her leave at her home in Logan, Ohio, but will retain a residence at the college.

Appointed to serve as director of food service during the absence of Miss Mathias is Paul Moore, Hampton, N. H. He joined the staff Sept. 1 after directing the food service at Foxborough Manufacturing Co. in Massachusetts. He was obtained through Crotty Brothers, Inc., food service consultants in Boston.

Leaders In Call

TWO MEMBERS of Juniata's board of trustees, Donovan R. Beachley, Hagerstown, Md., and Dale W. Detwiler, Roaring Spring, are among the five national leaders for the Anniversary Call Program of the Church of the Brethren in the 250th year.

Mr. Beachley is leader in the Southeastern Region and Mr. Detwiler in the Eastern Region.

Writes Series of Columns

A series of columns entitled "As I See It" has been written by Dr. Morley Mays, dean of the College, for the Church of the Brethren publication *Leader*.

Degrees for 25

BACHELOR'S DEGREES were conferred on 25 men and women at the College's 33rd Summer Commencement Aug. 22.

Eleven bachelor of arts and 14 bachelor of science degrees were presented by President Ellis at a dinner ceremony in Oneida dining hall. There were four women among the 25.

The candidates were presented by A. William Engel, director of public information who served as director of the Summer Term.

Geographical list of graduates —

PENNSYLVANIA

Bedford: James Alexander Eichelberger, 814 Main St., Saxton, bachelor of science, economics and business administration; Donald William Miller, 109 E. First Ave., Everett, bachelor of science, economics and business administration.

Berks: Anthony Joseph Chirico, 408 Chestnut St., W. Reading, bachelor of science, economics and business administration.

Blair: Jane Butts Burkett, Martinsburg, bachelor of science, medical technology. Present address: 3213 N. 17th St., Philadelphia 40; Yvonne Louise Russell, 1251 Washington Ave., Tyrone, bachelor of arts, English.

Bucks: Lillian Virginia Simons, 117 Fifth Street, Feasterville, bachelor of science, elementary education.

Cambria: George Llewellyn Anthony, 1602 Oliver Ave., Conemaugh, bachelor of science, mathematics; Donald Lee Irvin, Glasgow, bachelor of arts, sociology.

Centre: Frederick Arthur Barnhart, 738 E. Bishop St., Bellefonte, bachelor of science, economics and business administration.

Huntingdon: William Edwin Clark, Box 41, Mill Creek, bachelor of arts, history and political science; John Bruce Jaymes, E. 6 Ridge Ave., Mt. Union, bachelor of arts, history and political science.

Jefferson: Charles Paul Phillips, Jr., 44 Oak, Brookville, bachelor of science, economics and business administration.

Lancaster: Albert Henry Blough, 943 High St., Akron, bachelor of arts, economics and business administration; Richard Ohl Wenger, 313 Park St., Elizabethtown, bachelor of arts, pre-engineering.

Mifflin: Charles William Henry, Jr., R. D. 3, Lewistown, bachelor of science, chemistry; Ferdinando Salvatore Ross, 142 W. Market St., Lewistown, bachelor of science, biology; David Leroy Suloff, 125 Shaw Ave., Lewistown, bachelor of science, chemistry.

Philadelphia: Terrence Arnold Dear,

Dr. Charles S. Shively, 1875-1958

DR. CHARLES S. SHIVELY, former head of the department of mathematics and physics at Juniata, passed away September 15, 1958, after having been in failing health for three weeks. He was 83.

He joined the faculty of Juniata College in 1920 as head of the department. He left this post in 1942 and taught at Franklin and Marshall College, Rutgers University and Massachusetts State College, and then returned to Juniata in 1945.

Dr. Shively was a member of the Stone Church of the Brethren. He was a charter member of the Pennsylvania Academy of Science, a member of the Mathematical Association of America, and of the American Association for the Advancement of Science.

In 1907 Dr. Shively received his B.A. degree from McPherson College at McPherson, Kan. He received his M.A. degree in 1910 from the University of Denver in Colorado, and in 1919 he received his Ph.D. from the same school. He also did graduate work at the University of Chicago in 1920 and 1925. Dr. Shively studied at European univer-

DR. SHIVELY

sities from 1929 until 1930.

He served as a high school principal, a supervisor of schools in the Philippine Islands, and was also a mathematics instructor before coming to Juniata in 1920.

He is survived by his wife, one son and a daughter. Also surviving is one sister. Three brothers preceded him in death.

523 E. Godfrey, Philadelphia 20, bachelor of arts, pre-engineering.

York: Bruce Berg Dickey, Main St., Delta, bachelor of arts, history and political science; William Howard Jacobs, 1800 Monroe St., York, bachelor of science, chemistry.

MARYLAND

Washington: Robert Lee Byers, 1845 Pennsylvania Ave., Hagerstown, bachelor of arts, pre-engineering. Present address: Apt. 8, 728 Jefferson Ave., Rochester, N. Y.

NEW JERSEY

Atlantic: Milton Willits Glenn, Jr., 103 N. Pembroke Ave., Margate, bachelor of arts, history and political science.

Camden: John Thomas Jenkins, 423 Ridgeway, Gloucester City, bachelor of science, chemistry.

Middlesex: Susan Fawcett Fusco, Evans Drive, Cranbury, bachelor of science, elementary education.

NEW YORK

Westchester: Nicholas Vertefeuille Roth, 20 N. Broadway St., White Plains, bachelor of arts, history and political science.

Trustee Dies

CALVIN BOWMAN, 86, a trustee emeritus of the College, passed away on September 25, 1958. He was living in Johnstown.

Active in the work of the Church of the Brethren, Mr. Bowman became a member of the board of trustees in 1936 and served until he was made trustee emeritus in 1957.

Mr. Bowman was a member of the Moxham Church of the Brethren where he had been a trustee and deacon. He was past superintendent of the Men's Work of the western district of the Church of the Brethren. In 1934, Mr. Bowman retired as the supervising principal of Crafton Elementary Schools.

Surviving Mr. Bowman are his widow and two sisters.

Campus Viewpoint

By BARBARA WALLS '59

Miss Walls

POLITICAL STRIFE seems to be becoming a thing of the past on the JC campus, as relative peace and quiet have been the rule so far this term. The Senate, as usual, has been working toward achieving student desires, but these have been neither unreasonable nor controversial. Students and Administration seem to be more willing to see the other's point of view.

Whether this has any relation to the change in food service this year is a good question. At any rate, less complaining is heard about college meals as well as college policy, and the students seem satisfied.

* * *

QUITE A FEW changes were recommended at Leadership Conference this September, however. The biggest innovation was President Chuck Brown's proposal that the Senate assume more financial responsibility than it now has. This would entail increased Senate control over the \$25 activity fee paid by each student at the beginning of the semester.

Whereas the Administration now controls the budgeting of this sum, Brown suggested that a major part of it be handed over to the Central Treasurer for disposal. Thus, such student organizations as the *Juniatian* and the *Alfarata* would receive their allotments from the Senate rather than from the Administration. The Senate would also control the funds allotted for dance bands. Control over athletics would still be in the hands of the Administration; only those activities "amendable to student supervision" would be financially controlled by the Senate.

This proposal represents one more step in the trend toward increased student responsibility on American campuses. It is a healthy trend as it enables students to sample and thus better understand the administrative side of college life. We see this operating in the Campus Judiciary established two years ago when the students partially took over a formerly exclusive administrative function. If this proposal is adopted by the Administration, it will no doubt prove to be one of the major accomplishments of the '58 Senate.

* * *

COMMUNICATIONS has been an area of lively debate both at Leadership Conference and in Senate this year. The students settled one discussion October 7 when they voted to receive their yearbooks in the fall rather than in the spring, the advantage being a supplement including the current spring activities. Previously, these activities always lagged a year behind. Now they will be up to date at the cost of receiving the books five months later.

The publication of a literary magazine is the other topic of discussion in the communications department. A committee has been formed to iron out some of the knotty problems connected with such a venture, the main one being financial. Leadership Conference favored the magazine which would include short stories, plays and poetry. However, the committee doubts that enough student subscriptions could be obtained to support the magazine financially. Whether alumni would be interested enough to substantially subscribe to such a magazine will undoubtedly be an important factor

in determining its possibilities for success.

* * *

SINCE COMPOSITION of a new alma mater has reached somewhat of a stalemate, JC students, undaunted, have started in on a new senior hymn. Whether this project will meet with more success than the former is debatable. However, popular sentiment seems to be that the senior hymn is far more in need of replacement than was the alma mater, so perhaps coming up with an improvement won't prove as difficult.

Musically the campus has been active this fall with the students practicing every evening for their Parents Day production of Sandy Wilson's Broadway play, *The Boyfriend*. After a fleeting reversal of plans caused by the shortness of time until Parents Day, the committee decided to go ahead with the production. The strong rush of student protest at the change of plans no doubt influenced the final decision. It has been a long time since such an amount of student enthusiasm has been shown over a Parents Day production.

* * *

ALTHOUGH POLITICAL life on campus this fall has not been as spectacular as in some years past, nevertheless there are an abundance of important issues constantly coming up before the Senate. Although not as sensational, JC's student government is as active and as vital to student welfare as ever. We are glad to see this trend and hope the "smooth sailing" continues throughout the remaining college year.

Overseas Reunion

AN "OVERSEAS REUNION" of Juniata College alumni and friends was held in Schwarzenau, Germany, during the week of August 3.

Planned by Harold B. Brumbaugh, alumni secretary, who traveled in the Scandinavian countries, the occasion took place during the 250th anniversary observance of the Church of the Brethren.

The Juniata Sports Parade

Grid Patter

TIME OUTFRONS this publication like Bill Berrier out-scores opponents and by the time you read this the 1958 football season will be wrapped up.

But at mid-season (as this is written), the Indians have added four more scalps on the tepee to make 16 in a row—and the Oct. 18 all-out triumph over Lycoming was the “sweetest victory” in the streak. As most any follower of the Indians knows, Lycoming upset Juniata Oct. 13, 1956, in Williamsport with a 13-6 victory to snap an undefeated string of 25 games. This time, after waiting 735 days, Juniata stopped unbeaten Lycoming 27-7.

After watching Coach Ken Bunn’s team win their first four with hard-earned decisions, we could start at the beginning of the alphabet and run through the letters to find appropriate words of description for the team. For example: A—alert; B—brainy; C—courageous; D—determined; E—eager; and on down the line to Z—zealous.

This year’s team did not have everything, but you can take any or all of the above words from your dictionary of synonyms and use them to advantage when you tell your skeptical friends about small college football at Juniata.

Scranton was big and tough and perhaps as formidable as any opponent in many a moon. It took a good team to beat the Royals—and Juniata beat ‘em 24-0.

The 20-0 victory over Alfred in a night contest before 4,500 in Alfred, N. Y., was a fierce struggle, too, but the Indians’ alertness under pressure turned a pass interception, a punt and a fumble into three touchdowns.

Moravian was confident of taking the Tribe on Homecoming Day, but the overflow crowd witnessed Juniata’s 25th consecutive home field triumph, 28-6. Then came the victory over Lycoming.

Bill Berrier, playing without Twin Jim (out with a broken wrist)

CO-CAPTAINS OF TRIBE, Ken Opipery (left) and Joe Sopata, a pair of senior letter-men have helped Coach Ken Bunn (right) spark the Indians through another successful season on the gridiron. Opipery, a six-foot, 190-pound end from Stowe High, McKees Rocks, is considered as “one of the finest ends in eastern small college football.” Sopata, a 5-8, 180-pounder from South High, Pittsburgh, is a quick, shifty runner who has been ready at either left or right halfback.

sparked the offense and defense, but he had plenty of help. Bob Sill, making a comeback as a halfback after two years away from action . . . Bob Schwalenberg and Dave Goodling at quarterbacks . . . Co-capt. Joe Sopata, Stan Walasik and Harry Long also at halfbacks . . . provided most of the offensive punch.

Up front on the line Co-capt. Ken Opipery and Harold ‘Moose’ Krause at ends . . . Al Dungan, one of the east’s best punters, and Bo Solomon at tackles . . . Frank Rocco at center . . . and five guards, including Orlando Falcione, Roy Martin, Bob Devlin, Bob Melago and Emery DiDonato, proved to be stingy with yardage allowance.

All in all, the season looked like another good one. Why? Coach Bunn’s explanation: “Our kids have the attitude . . . the desire to win!”

Wrestling Approved

WRESTLING has been introduced as an intercollegiate sport at Juniata with the appointment of a coach and approval of a three-match schedule for this season.

Charles A. Godlasky, assistant football coach and instructor in social studies, has been named coach. Simultaneously, P. M. (Mike) Snider, director of athletics, announced that three Middle Atlantic conference opponents had agreed to the following schedule:

Dec. 4, Lebanon Valley, home; Dec. 13, Elizabethtown, away; Feb. 7, Lycoming, home.

A recommendation to approve wrestling as a varsity sport in the athletic program at Juniata was passed by vote of the faculty last March. The suggestion was made that a schedule be undertaken “on a one-year trial in 1958-59.”

Godlasky, a native of Osceola Mills, Pa., took his undergraduate work in physical education at Penn State University. He received his bachelor’s degree in 1951, a master’s degree in 1955.

ALUMNI DAY IN 1959

JUNE 6

Cagers Get Ready

ONLY FIVE lettermen were on hand when the Indians' basketball team began pre-season drills in preparation for the 1958-59 season which opens Dec. 1. One regular is missing from the quintet that compiled a 10-10 record last year under the direction of coach Dr. T. Arnold Greene.

Pacing the returnees is the leading scorer and rebounder from last year, Jack Heading of Johnstown. Although not a regular until after Christmas last year, Heading scored 338 points for a 18.8 average in 18 games and grabbed 192 rebounds.

Also back this year are Bob Ewald, 6-6 center from Boyertown and playmaker Curt Gardner of Irwin, Pa. Both played only half of the season because of scholastic difficulties. Other lettermen are: Gordon Ewers,

McKeesport and Mike Miller of Altoona.

Juniata will play 20 games including 12 Middle Atlantic States Collegiate Athletic Conference games. Last year they had a conference record of 7-4.

Dec. 1, Bridgewater, home; Dec. 6, Franklin & Marshall (MAC), away; Dec. 10, Elizabethtown (MAC), away; Dec. 12, Ursinus (MAC), home; Dec. 17, Geneva, away.

Jan. 7, Shippensburg, home; Jan. 9, Westminster, home; Jan. 12, Elizabethtown (MAC), home; Jan. 14, Indiana STC, away; Jan. 30, Rutgers (College of South Jersey), away; Jan. 31, Drexel (MAC), away.

Feb. 4, Lock Haven, home; Feb. 9, Dickinson (MAC), home; Feb. 11, Lycoming (MAC), home; Feb. 14, Wagner (MAC), away; Feb. 16, Wilkes (MAC), home; Feb. 18, American U., away; Feb. 19, Gettysburg (MAC), away; Feb. 23, Albright (MAC), home; Feb. 25, Susquehanna (MAC), away.

Note: MAC indicates Middle Atlantic States Collegiate Athletic Conference.

PERSONALS

News notes for this section should be sent to Mrs. William H. (Helen Schmidlen) Adams '57, who succeeds Mrs. James D. Hunt '56 as Class Editor and assistant in Public Relations Dec. 1. Personals for the Winter issue should be received by Jan. 1, 1959.

58

DOUBLE TROUBLE team of Jim (left) and Bill Berrier, brilliant twin brother combination in the Indians' backfield, ran into trouble this season when Jim suffered a fractured wrist in a pre-season scrimmage with Lock Haven. Bill somewhat reluctantly autographs the cast which kept Brother Jim out of action past mid-season. The photo, however, made the national wide service.

John Barger entered flight training at the U. S. Naval Air Station at Pensacola, Fla., on June 28. He was commissioned an ensign in the USNR on October 17. His address is now Ens. John Barger, BOQ Saufley, NAAS Saufley Field, USNAS, Pensacola, Fla.

Teaching 10th grade English in the North Hills High School is Maryln Berkebile. Her address is 118 First Street, Laurel Gardens, Pa.

After touring Europe this past summer, Janet Binkley is now taking a one-year secretarial course at Katherine Gibbs in Boston.

George Cline is attending Florida State University where he is studying towards a master's degree in physiology. His address is 513 W. Jefferson Street, Tallahassee, Fla.

Working as a special agent with Insurance Company of North America is Donald Conley. His address is 132 State Street, Harrisburg, Pa.

Wayne Drake is employed as an instructor in mathematics and science at Orbisonia High School, Orbisonia, Pa.

Married on August 30 at Somerville, N. J., were Marianne Donadio and Bob Fisher '56. Juniata's in the wedding were Johanna Barbarolo '59 and Carolyn Long.

Not busy enough teaching sewing to 7th and 9th graders and social studies to 7th graders at Langley Jr. and Sr. High School

in Pittsburgh, **Carolyn Long** is also taking shorthand two nights a week at Langley.

Employed as a home service representative for the Baltimore Gas and Electric Co. is **Eleanor Newton** whose new address is 607 Park Ave., Baltimore 1, Md.

Married on June 21 to Nancy Evans of Portage was **Noel Plummer**, who is now a graduate student in clinical psychology at the University of Miami. The Plummers' new address is 520 N. W. 44th Ave., Miami 34, Fla.

Preparing for the ministry **Harvey Resler** is now studying at Bethany Biblical Seminary. Harvey had a pastorate in West Virginia over the summer months.

Barb Smathers is a social caseworker for the Child Welfare in Cambria County and

16. Howard and Carol are both doing graduate work in chemistry at Purdue University.

Betty Ann Barr became Mrs. Douglas Johnson on April 4. While Doug is at Fort Dix, New Jersey, Betty is teaching the sixth grade at Lyndonville. In December the couple will move to Knowlesville, N. Y.

Lucille Frey and **J. Ronald Shirk** were united in marriage on October 25 in the Methodist Church of West Chester, Pa.

James E. Barefoot is attending Jefferson Medical College in Philadelphia. The past year Jim was a member of the research staff in the Department of Biology at Princeton University.

James M. Stayer and **Marcia Sweet** ex '59 were married in the Stone Church of

French Laboratories in Philadelphia" where she is a medical correspondent in the Research Training Division.

Jim and Nan (Heller) Hunt are among the more permanent members of the Huntingdon community having purchased a home on Warm Springs Road. Their address is R. D. 2, Huntingdon. Jim is helping with sports in the College News Bureau in addition to his city editor's duties.

The engagement of **Anna Mary Leiter** to **Gareth Burall Lease** was announced recently. Anna is now teaching home economics in the Washington Township High School.

Carroll Elaine Suter ex '56 became the bride of **Clifton G. Kreamer** on August 23. Juniatians in the wedding were **Mary Jane Hershberger** and **Norma Cale** ex '56. Carroll is now teaching home economics in the Northern Bedford County School system while Clifton completes his senior year at Mansfield State Teachers College.

55

Mr. and Mrs. (Mary Ann Bailey) Philbrook Smith became the parents of a son, **Kevin Philbrook**, on July 17. Mary Ann was class editor of the Alumni Bulletin and Phil is a member of the faculty.

Mr. and Mrs. (Phyllis Davis) William H. Groninger announced the arrival of a son, **Mark Davis**, on August 29.

Having received his Ph.D. degree from the University of Illinois, **Dick Ikeda** is now located at Harvard University. His mailing address is: c/o Chemistry Department, Harvard University, Cambridge 38, Mass.

After traveling from Colorado to Texas, **Kaydonna (Bubeck) and John Kisel** '55 have "finally acquired a permanent address for awhile." The Kisels are now at 37 Harty Road, Fort Dix, New Jersey. John is now a Medical Service Corps officer, and Kaydonna is kept busy with son Davey.

Audrey (Mikey) Mick has been appointed as an instructor in home economics in the Margaret Morrison Carnegie College, Carnegie Institute of Technology. Mikey resides at 553 Third Street, Pitsburgh, Pa.

Frank Moist was the recipient of the Bachelor of Divinity degree at the June commencement of Drew University, Madison, N. J.

54

W. Clemens Rosenberger was recently installed as pastor of Westmont Church of the Brethren. The Rev. and Mrs. Rosenberger are residing in the church parsonage at 158 State Street, Westmont.

Roderick (Rick) Binkley and **Theresa Olszewski** were married in the St. Stanis-

TRIO OF JUNIATIANS form the football coaching staff at Saxton-Liberty High School in Saxton, Pa. Left to right: **Don Brumbaugh** '57, **Bill Haushalter** '56, head coach, and **Chuck Mullen** '57. They are among a growing legion of former Indians now in the coaching ranks.

enjoys her work with the children very much.

57

William H. Adams is now serving with the Armed Forces. His address is Pvt. William Adams, US 52483167, I Co. 1st TNG REGT, Fort Dix, N. J.

On Saturday, June 14, **Ann Weaver** and **Paul J. Amash** were married in the Stone Church, Huntingdon. Serving as an usher was **Dean Hancox**. Mr. and Mrs. Amash are residing at 912 South Atherton St., State College. Paul is a graduate student in the Department of Romance Languages at Penn State.

The Episcopal Church of Ardmore was the scene of the wedding of **Carol Ann Newborg** and **Howard Angstadt** on August

the Brethren June 1. Jim received his M.A. in history from the University of Virginia on August 16. This fall both he and Marcia are attending Cornell University where he is working towards his doctorate while Marcia completes work for her B.A.

56

Neil and Barb (Phennicie) Albright announced the arrival of Gary Neil on July 30. Gary has a brother Mark. The Albrights now live in Saxton.

Among those receiving Master of Science degrees at the June commencement at The Pennsylvania State University was **Dawn A. Kieferle**. Dawn did her graduate work in psychology.

Kass Keeler writes that she is "settled in a lovely new job at Smith, Kline, and

laus Church of Binghamton, N. Y., on September 13. They are presently residing at 1543 East Main Street, Rochester, N. Y.

Silas E. Dubbel, Jr. and his wife Eldbjörg announced the arrival of a daughter, Kristin, on April 28. Both Sy and Eldbjörg are teaching history at the Grier School, Tyrone, Pa.

53

Robert H. Folk, 100 Valley Road, Plainfield, N. J., received the LL.B. degree from New York University on June 4.

Carol Shoemaker Kulp writes that husband David now has a fellowship in child psychiatry at the Child Study Center, Institute of Pennsylvania Hospital. The Kulp family and their two children, Barbara Ellen, 3, and Barry David, 1, recently moved to 280 Friendship Road, Pilgrim Gardens, Drexel Hill, Pa.

52

Rev. and Mrs. (Mary Ann Moyer ex '54) Philip M. Kulp, missionaries of the Church of the Brethren, are now living in Jos, Nigeria. The Rev. Kulp is teaching in the Waka Training Center, P. O. Bui via Jos, and Mrs. Kulp is supervising the school dispensary. The Kulp family has three daughters, Chrissy, Tanya, and Naomi.

51

Vernon C. Showalter received a master's degree in hospital administration from Northwestern University this past spring. He is now serving as assistant administrator in charge of the Business Department at Bethany Hospital, 3420 West Van Buren Street, Chicago 24, Ill.

50

Alan M. Fletcher and his wife Julia Mae Emigh '49 announced the arrival of Cynthia Kay on February 15. Cynthia is the third girl in the Fletcher family.

James E. McClain was appointed as juvenile probation officer for Huntingdon County on July 7. Until receiving the Huntingdon County position McClain was a special agent with the Federal Bureau of Investigation, U. S. Department of Justice. The McClains have one son, James E. McClain, Jr., 17 months of age.

49

John Kepford and his wife Betty were recently featured in an issue of *Redbook*

HEAD OF DOCUMENTS department in the library at the University of Pittsburgh is Glenora M. Edwards '47 who is shown checking one of more than 50,000 volumes in her care. Miss Edwards recently described "Government Publications in the University Library" in the Summer issue of *Pitt*, a magazine of fact and thought.

The article "We Follow the Company" is the story of their many moves and the effects these moves have made upon their lives. John works as a cost accountant for Owens-Corning Fiberglass Corporation, Anderson, S. C.

John O. Yetter was recently named principal of the Southern Huntingdon County Schools. Until receiving this appointment he had served as assistant principal in the jointure and was in charge of the Orbisonia High School.

48

A recent graduate of the Kirksville College of Osteopathy and Surgery, Kirksville, Mo., was Richard G. Chaplin. Dr. Chaplin is interning in Lansing, Mich., and later plans to practice at Fort Lauderdale, Fla.

Now teaching math at the Grier School, Tyrone, Pa., is Carl Moore. Carl continues to live in Taylor Highlands, Huntingdon.

47

Charlotte Stutzman Frantz writes of a "drastic change in address." She is now in Salisbury, Southern Rhodesia, Africa, where her husband is attached to the University of Rhodesia as a research associate under a Ford-sponsored exchange.

46

Leland Miles, author, lecturer, humorist, and college professor at Hanover College, Hanover, Ind., is producing and moderating a half-hour program "Casing the Classics" over WHAS-TV. The program is an experiment in very informal discussions of outstanding novels and poems of significance for our time.

Jim and Lorene Dunmire had circled the globe when they returned to their home at 35 Hobart Ave., NSW, Australia, in August. The Dunmires visited family, friends, and made stops in Asia, the Middle East, and Europe during their world-circling trip. Jim is employed as a sales manager for Minnesota Mining and Manufacturing Company. The Dunmires have five children.

45

"Our latest move should be our last one," writes Hazel Hemminger Fluke. "So we bought a home in the country at 160 Cherry Lane, Wooster, Ohio."

40

Major Arthur Murray, ex, project officer for the Air Research and Development Command, has as his job the supervising of the "crash" program for the development of the X-15, the Air Force supersonic plane. Murray states that "we try to put out fires before they start." Stationed at Wright-Patterson Air Force Base, Dayton, Ohio, Murray works with the contractors who supply parts for the X-15, and keeps production schedules moving so that progress on the supersonic plane is not hindered.

On a four-month furlough from Nigeria is missionary John B. Grimley. During his leave John is in the foreign mission office of the General Brotherhood Board working on mission education and recruitment.

37

After serving as pastor of the New Enterprise Church of the Brethren for the past seven years, Rev. Wayne Dick resigned to accept the pastorate of the Green Tree Church of the Brethren at Oaks, Montgomery County.

35

"The Beloved Son," a rhymed life of Jesus for children, by Blanche Shoemaker Wagstaff Carr, is now in its ninth printing and has sold over two million copies. Published by Whiteman Co., Racine, Wis., it is sold at chain stores and Woolworth's.

Rev. Norman Vincent Peale has the following to say of the book: "The simplicity of your presentation of the Bible story is most effective and I am sure parents will find it most helpful. It is beautifully written."

34

Jack Myers, director of the University of Texas Algal Physiology Laboratory, has a two-year \$13,000 grant from the Rockefeller Foundation, which he will use to accelerate his basic research into the physiology and biochemistry of algae.

33

Dr. and Mrs. Gilbert D. McKlveen and children Helen Jo and Larry, are one of the most widely traveled families in the teaching profession. The McKlveens have visited every state but North Dakota. Dr. McKlveen, head of the department of education at Lebanon Valley College, teaches at Annville in the winter and travels to various colleges and universities in the summer to conduct courses.

32

Recipient of the Master of Education degree at the June commencement of the Pennsylvania State University was Mary Elizabeth Ford.

31

On September 8 Rev. Ivan C. Fetterman began his duties as pastor of the Hollidaysburg Church of the Brethren. Rev. Fetterman formerly served the Green Tree Church of the Brethren, Oaks, Pa.

30

An elementary education major while at Juniata, Margaret Nelson Cronemiller received a Master of Education degree from Penn State in June.

29

Roy Schrock passed away June 26. His daughter, Loretta, is a junior in elementary education at Juniata.

27

The Rev. T. Max Hall, pastor of the Mill Hall Methodist Church, passed away recently. He had served as a member of

PAGE 12

Medical Director

A JUNIATA graduate, Dr. W. Alan Wright '35, has been named medical director of Mead Johnson International, foreign operations division of Mead Johnson & Co.

The new Mead Johnson physician-executive joined the company from Charles Pfizer & Co., Inc., Brooklyn, where he had been medical director since 1950. Before Pfizer, Dr. Wright was with Schering Corp., Bloomfield, N. J., as associate director of clinical research.

In addition to holding the M.D. degree from Temple University Medical School (1939), Dr. Wright also is a trained pharmacist. He was graduated from Philadelphia College of Pharmacy in 1931. He holds the B.S. degree from Juniata.

As medical director of Mead Johnson International, Dr. Wright will be responsible for rendering medical opinions and technical service on products, determining safety char-

DR. WRIGHT '35

acteristics and maintaining safety in the use of products in overseas markets.

He also will expand contracts with physicians in all countries in which the company operates.

the Central Pennsylvania Conference of the Methodist Church since 1922.

23

Dr. Miles Murphy, professor of psychology at the University of Pennsylvania and personnel officer of its College of Arts and Sciences, collapsed and died after teaching his classes October 3, 1958. Dr. Murphy, who had taught at Penn for 35 years, became an assistant professor in psychology in 1929 and was named a full professor in 1950. A past president of the Pennsylvania Psychological Association and a member of Phi Beta Kappa, Dr. Murphy had specialized in psychology and educational guidance. He had done diagnostic and remedial work in the psychological clinic at the university. Surviving are his wife, Genevieve, and a son, Scott, who is a student at the College of Physicians and Surgeons, Columbia University.

Galen K. Walker has returned to his home at 2434 East Street, Laverne, California, following an interim pastorate at Phoenix, Arizona.

17

During the month of August Dr. John C. Baker assisted the Royal Government

in Cambodia in conducting a survey of the high school educational needs in Cambodia. Dr. Baker, who is president of Ohio University, resides in Athens, Ohio, with his wife Elizabeth and their three daughters.

11

On September 10 Capt. Will Judy ended 36 years as Editor of Dog World Magazine, but will continue as president and director of the Judy Publishing Company. Despite a disastrous fire on July 30, the Judy Publishing Company carries on with its book publishing business.

95

Mary Jane Bailey George died August 19 following an extended illness of 6½ years.

81

Dr. John F. Mentzer, ex, who practiced medicine for almost 70 years in Lancaster County, died August 29 at the age of 96.

THE JUNIATA CHAIR

A Handsome Remembrance
of Juniata to Add Grace and
Beauty to Home, Office or
Alumni Reunions on the
Lawn

WHETHER YOUR HOME, office, or studio follows the so-called conventional or modern trend, this beautiful chair will lend itself in perfect harmony . . . for this chair, which comes in black, with gold trim, has a proper place in the conventional or modern setting . . . even at reunions like the big Twenty-Fifth of the Class of '33.

Perhaps you have always admired this type of chair for its beauty in design and comfort . . . Now you may own one with that added "personal touch" — the seal of Juniata College has been attractively screened, in gold, to the front of the chair.
